

Mr . Robert Pease

President, CEO and Director

Terrane Metals Corp.

Rob holds a BSc degree in Earth Science from the University of Waterloo, and has been involved with mineral exploration and mine development for the past 25 years

Rob was continuously employed by the Placer Dome group for most of that time

Rob has worked on numerous exploration projects worldwide.

Since 2002, Mr. Pease was the General Manager, Canada Exploration and Global Major Projects with Placer Dome, where he was responsible for managing all aspects of Canadian exploration, and overseeing the geological aspects of advanced stage, major exploration and development projects world-wide

In April of 2006, Rob founded Terrane Metals, and acquired the feasibility stage Mt Milligan copper-gold deposit, the advanced stage Berg copper-molybdenum deposit, and several other exploration projects

He is a Professional Geologist (British Columbia) and a Fellow of the Geologic Association of Canada

Rob is also currently Chairman of the Association for Mineral Exploration British Columbia.
